Review

"If you're planning to build an eco-friendly house, you will certainly come across hemp as a construction material. The benefits are many, and the book goes through all of them.?"

"Allin's interest lies in the fact that there are still many people around the world coming up with new and imaginative ways of using hemp in every climate and all weather conditions. His aim, therefore, is not to provide a manual, but to inspire. Still, he certainly shows how feasible it is!"

-SelfBuild & Improve Your Home June 2012

About the Author

Steve Allin is an author, teacher and consultant on ecological building. He has enthusiastically pioneered the use of hemp in building in Ireland and internationally for many years. He has also contributed articles to a variety of publications from the Green Building Bible to Cannabis Culture magazine. Hemp to save the world

By Michael L. Yaknowski

It doesn't go into as much detail as I would have liked, but it is a winner! Hemp needs to be planted around the world, in between and alongside every road and on every vacant property. This is the only thing that will cool our planet, clean our air, and create new economies. Learn how to make it happen at godssasp.org.
