\*\*\*#10 on National Review's List of the 100 Best Nonfiction Books of the Century\*\*\*

Milton Friedman argues that the appropriate role of competitive capitalism occurs when the majority of our economic activity flows through private enterprise within a free market environment. This is unequivocally the most effective device for achieving economic freedom, as well as the necessary condition in which political freedom can be attained. Friedman's arguments are positively bold, enlightening, and impacting. Among the specific topics he addresses are "The Control of Money," "Fiscal Policy," "Capitalism and Discrimination," and "Social Welfare Measures."

Well done, more balanced than I expected it to be.

By Richard

A surprisingly in-depth look (for such a short book) at various market factors that capitalism affects and is affected by. I didn't expect to find any justifications for ANY government intervention in the market, but Friedman spells out many situations that he feels it would be justified, how it would affect the situation and what the alternatives would be. On the whole, this is an expertly written treatise on free market economics, or as free as rationally viable (given the political climate of the time).

A rational position on the value of free markets

By LV

A rational and well thought out view on the value of free markets and voluntary exchange for modern economies. With today's shift toward bigger government and ever further redistribution, Friedman's ideas are more important than ever. Economic decisions made by a society of individuals is what allowed the US become an economic powerhouse, not a government induced separation of work and reward. Bernie Sanders would NOT approve this message.

Best defender of true free markets.

By Jacqueline J. Klunk

A man who knew all the arguments for real capitalism. Kind, persuasive approach attracts interested listeners, deep understanding of benefits of real free markets. Highly recommended for millennials who lean toward socialist theory, wrongly assuming that socialism means "sharing".
