Representando la entidad del hombre moderno, tres turistas viajan a la isla antillana identificada por los taínos como Quisqueya, donde vínculos espacios temporales los envuelven en una trama fantástica de ficción histórica. Las singularidades de un continuo horizonte de eventos, los retraen y los expanden en su noción de su realidad condicionada a los parámetros referentes modernos, colocándolos como protagonistas activos presenciales y decisivos en escenarios que han, y pudieron haber sido vastos y suficientes como realidad para la percepción paramétrica, que hoy en los cúmulos circunstanciales en el tiempo, consideramos primitiva. La primera trama de la saga CARNAVAL BUCANERO, tiene la intención de plantear como un reto que habrá de ser emocionante en nuestra capacidad de disolvernarnos en la imaginación, los escenarios que permiten la ficción y los datos históricos que perduran en el transcurrir lineal del tiempo, alcanzándonos como mis primeros pasos en la palabra escrita, o como mi peculiar planteamiento de otras realidades condicionadas a nuestros parámetros referentes modernos.
