Additionally this *CISSP Study Guide, Third Edition By Eric Conrad, Seth Misenaar, Joshua Feldman*, you will certainly have no remorse to obtain it.

About the Author

Eric Conrad (CISSP, GIAC GSE, GPEN, GCIH, GCIA, GCFA, GAWN, GSEC, Security+), is a SANS-certified instructor and President of Backshore Communications, which provides information warfare, penetration testing, incident handling, and intrusion detection consulting services. Eric started his professional career in 1991 as a UNIX systems administrator for a small oceanographic communications company. He gained information security experience in a variety of industries, including research, education, power, Internet, and healthcare, in positions ranging from systems programmer to security engineer to HIPAA security officer and ISSO. He has taught more than a thousand students in courses such as SANS Management 414: CISSP, Security 560: Network Penetration Testing and Ethical Hacking, Security 504: Hacker Techniques, and Exploits and Incident Handling. Eric graduated from the SANS Technology Institute with a Master of Science degree in Information Security Engineering.

Seth Misenaar (CISSP, GPEN, GCIH, GCIA, GCFA, GWAPT, GCWN, GSEC, MCSE, MCDBA), is a certified instructor with the SANS Institute and serves as lead consultant for Context Security, which is based in Jackson, Mississippi. His background includes security research, network and Web application penetration testing, vulnerability assessment, regulatory compliance, security architecture design, and general security consulting. Seth previously served as a physical and network security consultant for Fortune 100 companies and as the HIPAA and information security officer for a state government agency. He teaches a variety of courses for the SANS Institute, including Security Essentials, Web Application Penetration Testing, Hacker Techniques, and the CISSP course.

Seth is pursuing a Master of Science degree in Information Security Engineering from the SANS Technology Institute and holds a Bachelor of Science degree from Millsaps College, Jackson, Mississippi.

Joshua Feldman (CISSP), is currently employed by SAIC, Inc. He has been involved in the Department of Defense Information Systems Agency (DISA) Information Assurance Education, Training, and Awareness program since 2002, where he has contributed to a variety of DoD-wide Information Assurance and Cyber Security policies, specifically the 8500.2 and 8570 series. Joshua has taught more than a thousand DoD students through his "DoD IA Boot Camp" course. He is a subject matter expert for the Web-based DoD Information Assurance Awareness-yearly training of every DoD user is required as part of his or her security

awareness curriculum. Also, he is a regular presenter and panel member at the annual Information Assurance Symposium hosted jointly by DISA and NSA. Before joining the support team at DoD/DISA, Joshua spent time as an IT security engineer at the Department of State's Bureau of Diplomatic Security. He got his start in the IT security field with NFR Security Software, a company that manufactures Intrusion Detection Systems. There, he worked as both a trainer and an engineer, implementing IDS technologies and instructing customers how in properly configuring them.

CISSP STUDY GUIDE, THIRD EDITION BY ERIC CONRAD, SETH MISENAR, JOSHUA FELDMAN PDF

CISSP Study Guide, Third Edition provides readers with information on the CISSP certification, the most prestigious, globally-recognized, vendor-neutral exam for information security professionals.

With over 100,000 professionals certified worldwide, and many more joining their ranks, this new third edition presents everything a reader needs to know on the newest version of the exam's Common Body of Knowledge.

The eight domains are covered completely and as concisely as possible, allowing users to ace the exam. Each domain has its own chapter that includes a specially-designed pedagogy to help users pass the exam, including clearly-stated exam objectives, unique terms and definitions, exam warnings, "learning by example" modules, hands-on exercises, and chapter ending questions.

- Provides the most complete and effective study guide to prepare users for passing the CISSP exam, giving them exactly what they need to pass the test
 - Authored by Eric Conrad who has prepared hundreds of professionals for passing the CISSP exam through SANS, a popular and well-known organization for information security professionals
 - Covers all of the new information in the Common Body of Knowledge updated in January 2015, and also provides two exams, tiered end-of-chapter questions for a gradual learning curve, and a complete self-test appendix
-
- Sales Rank: #16110 in Books

Great book to help prepare for the exam!

By Craig White

This book was one of resources that I utilized to prepare for the CISSP exam. I had recently attended a formal training class which Eric taught on this topic and the book was very straight forward just like his teaching style that I experienced live. The material in the book was to the point without the added fluff. Contained in the book are some real-world scenarios that help tie the information together. This book helped supplement and reinforce some of the domains that I have limited exposure to.

With this part as part of my study regimen, I was able to pass the exam on the first attempt.

SANS Course in a Book

By Jason Miller

I have been studying on and off for the CISSP for about 3 years now and I have two different versions of the Shon Harris book. I purchased this book two weeks before my scheduled test as my final study material. It delivered. I was able to quickly read through each chapter and it was thorough and to the point. There was no fluff or jokes, perfect for what I was looking for.

I recommend this book if you have actual infosec experience and just want a good book without fluff to get you through this test. It covers everything you need from the SANS Course for a fraction of the cost.

Five Stars

By G. Papagiopoulos

This is a great and focused reference for those looking to pass the CISSP exam. Provides a great review and detail where appropriate with laser focus on covering the large body of knowledge one is required to understand in order to pass the exam.
