Of litte use

By Fabien Snauwaert

This is merely a word-list, with one to a handful of one-word translations, from English to Russian. The words are ordered alphabetically (NOT by order of frequency, this is NOT a frequency list) and I honestly don't know how many are included.

Since the book dos not include example sentences, it is pretty much useless. It does not include information about stress either.

Not a helpful resource for learners.

Good dictionary, but very difficult to use with Kindle

very basic English to Russian dictionary

By john

While I disagree with the utility of some of the "most used" words (like abbey. I can count on one hand how many times I've used that in the last 32 years), it seems a decent offline resource. Good for when you don't have access to an online translator or a proper dictionary.
