A juvie kid trying to stay on the right path stumbles into trouble...

Gemma takes her camera everywhere. From juvie hall to a halfway home, the new hobby gives her a focus she'd never had before and...hope in a future. Until she takes pictures of something that could get her killed.

And not just her. After she and another juvie girl are chased by a stranger to the halfway home that same night, the other girl goes missing and Gemma knows she needs help. But who can she trust?

Not the authorities that's for sure. Trusting them is impossible for a girl with her damaged history, and besides, who cares about a troubled kid - especially when trouble just naturally seems to find her.

A Reading the Paranormal Review

By Kelly Rubidoux

I must say that this was a fun little book. Following a group of kids that have to fight the perceptions of society as they struggle to do the right thing was engrossing. The hints of a possible romance brewing between Gem and one of the her partners in crime made me grin. In fact, I am stupid excited to see where that leads in the future.

But this book isn't just about the romance (that's just a tease and it's more like the icing on the cake). This book is about Gem and her drive to do the right thing. She's happy in the halfway house - at least, she's happier than she was in juvie - and she's determined to stay out of trouble so that she can enjoy the freedom and the second chance she's been given. When circumstances step in and put her firmly in the spotlight, she doesn't back down from the fight in front of her. She's spunky and smart and she's not afraid to use her resources.

Probably the only thing I did question as how self aware these kids were. They form strong bonds when things start to go bad and they have to rely on one another and they're very quick to see this. This wasn't a deal breaker by any means (and I liked that they saw themselves as a family), but it was difficult for me to see these kids - some of whom had come from some really horrible situations - as being able to vocalize this closeness so easily.

Overall, it's a solid start to a new series. I really, really, REALLY liked that we got a touch of potential romance that didn't overpower the overall story. Oh, and the bad guy? I didn't guess who it was until the very end. Like usual.

She won't give up...

By Jo Ann Hakola

Gemma Stone grew up in juvie. She knows where she is now (a halfway house of sorts) is the best place she's been so far. She also knows that she'll soon be old enough to go out on her own and she's looking forward to that. Right now, she's been having fun taking pictures and trying new techniques for better photos. When she finds green slime on the creek below the bridge, she has no idea how much trouble that is going to cause her and her friends...

Ms. Mayer graciously shared her ebook with me for review (thank you). I enjoy her writing and the stories she creates, so I was glad to read it. You can buy a copy on Amazon either as an ebook or a paperback now.

The green slime is from an illegal activity and Gemma's picture taking manages to get the bad guy's attention. When Gemma's female friend is kidnapped from the home, she and the other juvies from the home do their best to find her. When they do, she's been drugged and must go to the hospital.

These kids have a natural distrust of law enforcement; they've been on the wrong side of it too often. They don't think anyone is going to protect them from whomever kidnapped their friend. So they will have to do it themselves...

These are strong young adults who can think quickly when in danger and who aren't afraid to fight back. Gemma is especially outspoken and I like her. She's going to get to the bottom of the case and resolve it even if she has to get the whole town involved.

There's good action, challenges galore, and it's a good story. I have the feeling Gemma and her friends will be back. I can't wait to read their next adventure.

Happy reading.
