Beautifully styled book. Attainable looks for the average person.

I'm a Master Gardener and first saw this book on Anthropologie's website. I was thrilled to find it on Amazon for \$20 less. Full of "eye candy" for those of us who love plants! It gives many nice examples of how to incorporate plants into your indoor and outdoor decor. The other thing that I really like is that the styles shown are actually attainable. Versus magazine photos that took 3 stylists, plants grown specifically for the shoot, and lighting to look spectacular.
