Good, Easy Book

By PianoGirl

This book contains several great songs from this adorable Pixar movie. The music is simple and easy intermediate. (I've been playing piano for ten years.) I would have preferred that the music was more detailed (I find the versions a little boring), as they could have been more fun to listen to and play. However, the piano version is true to the soundtrack. As I said before though, it could have been much more detailed to provide fuller sounding songs.

"Touch the Sky" is a good piece, but the codas are obnoxious! When you're playing along, you don't really want to stop and turn back three pages and then a few notes later, skip ahead again.
