YOU CAN LEARN TO PERFECT ANCIENT ARTS

NOT A PARLOR TRICK!

A former military intelligence operative and author of over a dozen best sellers says not only has the intelligence community been able to perfect invisibility through projects such as the Philadelphia Experiment and the use of Stealth technology, but that such techniques were actually derived from psychic abilities that are a part of psychic, occult and religious lore.

"There are many accounts of Popes, Saints and Monks -- as well as ordinary individuals -- vanishing into thin air and appearing elsewhere almost instantly," says Commander X. "Nor is the science of Levitation to be taken lightly, for didn't even Jesus 'walk' upon the water? Cases of human levitation aren't that rare," the author reveals. "The power of levitation is dormant in us all and needs but the proper catalyst to be set into motion."

Members of various Secret Societies have long been practicing both invisibility and levitation as a matter of daily routine.

This book offers various techniques that really WORK, providing the reader with dozens of examples of How-To Training Course which takes the subject out of its mystical surroundings and places it in a scientific -- and most -- practical framework.

After reading this one I thought being invisible and levitating might not be such a good idea. I felt like I was invisible being in contact with this wayward source. No one spoke to me, I was a stranger to myself. (Ok, maybe Im exaggerating a bit, it was rough though.) Its more like a book report on the subject. If your going to become invisible after reading this book its only through your foreordained fate. You'll likely to be a prisoner in another realm. I think only time and inborn disposition will manifest these things. Who knows if its not going on by us in passing spirit, you'd never know. Just look at the invisible girl. She's a doll, but she knows how to handle her endowments.
