This is the volume 2 of the novels, not the manga.

By Fakey McNameson

So yeah, I made the mistake and bought this thinking it was volume 2 of the manga, but it's actually the second light novels, so now I have volume 1 of the manga, and volume 2 of the light novels.

It still follows the same storyline and all, and is still good, but be aware of which format it is you're buying. I really wish they would make it more obvious on Amazon so that idiots like me don't get confused.

Not what I expected, but still a good purchase if you like LNs

By Random Person

Ordered this expecting the manga version....and after viewing the comments I'm glad I wasn't alone on this, but instead got the light novel. Which means I have Vol. 1 Manga and Vol. 2 light novel. I wish amazon had some indicator of what you were getting. I just found it strange since Vol. 1 was also ordered from here earlier this year...and has no option to buy the light novel of Vol. 1. However minutes after receiving the item contacted amazon, and they said they were willing to issue me a full refund and I don't have to return the item. Which was awful nice of them. The light novel itself is really great. The light novels of manga often go into much more detail than the manga/anime. Its basically the same thing, but explains a it more.

A good continuation

By OverlordUsurper

Was expecting this light novel, and that's what I got.

A good read for fans of the anime or the first volume. Though there's some odd translations and/or typos, they can be overlooked in favour of the quality of the story.
