Updated in a new 8th edition, *Public Speaking: An Audience-Centered Approach* brings theory and practice together. Its distinctive and popular approach emphasizes the importance of analyzing and considering the audience at every point in the speech making process. This model of public speaking is the foundation of the book, and it guides the reader through the step-by-step process of public speaking, focusing their attention on the dynamics of diverse audiences, and narrowing the gap between practice and the real world.

Easy to read- great to use

By Katherine Brown

This is a really good book. I used it for a college class on public speaking, and I would have been lost without it. It covers things that you always forget to include, and great hints on how to increase your confidence and persuade an audience. For someone like me who was terrified, but no longer is of public speaking, and for those who just need a refresher course, this book is brilliant.

3 of 3 people found the following review helpful.

Saved me 80 bux!!

By Edward J. Glassmire

Im currently a college student and the latest version of this book is close to 100 dollars but this older edition has the exact same content as the latest, just a different cover. So this really saved me some much needed cash.

2 of 2 people found the following review helpful.

Great Text

By Ellen Kinstler

Great text book. Was in used condition, but absolutely usable. The text was clearly understandable and the information was relevant to current techniques.
