THAT EXTRA HALF AN INCH: HAIR, HEELS AND EVERYTHING IN BETWEEN BY VICTORIA BECKHAM PDF

'I've always been a girls' girl. And I know from experience that making the very best of yourself is something any woman can do. I was never the six-foot-tall pin-up. I've always been the girl-next-door who got lucky. I've come a long way in the last ten years, but this book isn't my attempt to tell you what or what not to do. It's just to share some of what I've learned.'

In *That Extra Half an Inch*, a tongue-in-cheek reference to her love of high heels, Beckham shares her tips for finding your own style including:

- Learning how to dress for special occasions
- Shopping for everyday wear and where to look for it
- Accessories: defining the looks that work best for you
- Helpful hints for the holidays
- Making the most of your wardrobe
- How to feel confident and look great every time you leave the house

That Extra Half an Inch is a beautiful, nothing-but-the truth, easy-to-use book on fashion, beauty and style. Victoria shares her personal style secrets so whether you're getting ready for work, a night out on the town or even doing the school run, you too can feel confident and look great every time you step out of the front door.

I expected this to be more of a style guide...

By Kate

I purchased this book expecting it to be a style guide of sorts. Unfortunately, it's just Victoria's closet. It essentially catalogs all of her favorites and shows you her beautiful wardrobe, but doesn't really help you with style advice or putting outfits together. I probably could have just bought a magazine and received more style tips. I love Mrs. Beckham but I am disappointed that I purchased this.

an extra star for pretty pictures

By bearcatranch

I was expecting something different. I have always like Victoria, probably admire is a better word. I come from farm country and the thought that a girl can look SO glamorous all the time is truly impressive. But given the title I assumed it was more about HOW she looks so polished everyday, or at least why. I suppose I was looking for motivation or inspiration and I didn't really get either. It's just her telling you all the different types of clothes (skinny jeans, boot cut jeans, straight leg jeans), and then her list of designer labels of where to get them, which personally I will a) never actually look up to buy them or b) I could have googled it if I wanted designer stuff that bad. I wanted an insight into her world of how, why and for what she wears what she wears and fits it all in her day to day life, not the same old definitions of what a pencil skirt is and what an a-line skirt is, which anyone who has ever read a fashion magazine already knows. I still admire Victoria. I just wish I got more from her book. Or at least learned something new.

A Silly Book with great photos and very vague fashion tips

By Shae

I think I read it somewhere down in the reviews of what a laugh this book was. I mean the review itself was funny, but they were actually right ! Ha ha I've always like Victoria in the fashion industry and I mean she has found a way to take what she likes as a passion and make it into a very profitable business, while glamorizing her life and the fashion in it, so I thought this book would be a little like that, a little "tongue n cheek", with that British sort of humor, and fashion thrown into the mix. It's more like a fashion shoot, and the mention of all the designer brands she wears, and shameless promoting of all her brand lines. I mean I couldn't take half of her tips seriously because every other sentence you could find the mention of her brand of "Somethings" had whatever you were looking for. Now I don't think she was bragging in anyway but it did keep me laughing the whole entire book and is a good read to read if you find yourself in the need to kill some time. The fashion tips were vague, but the laughs were worth it.
