THE NETERU OF KEMET (2010 ELECTRONIC EDITION) BY TAMARA L. SIUDA PDF

THE NETERU OF KEMET: An Introduction 2010 version (reprint of the rare 1994 text) "If you are looking for a good introductory book to the Gods of ancient Egypt, The Neteru of Kemet is the best I have read. The author is a graduate student of ancient religions and a priestess of the House of Netjer. Thus, she writes of the Gods (Neteru) with both scholarly background and personal experience. This combination gives her material that sense of truth so often lacking in other recent books on this subject. The introduction deals principally with the religious practices of Kemet (ancient Egypt) and touches on those of the House of Netjer. The bulk of the book consists of 13 vignettes devoted to the most universally known Neteru. Each vignette contains Kemetic texts, visualizations/ meditations, illustrations, and a discussion of the Neter being described. Following these is an excellent bibliography and a brief glossary. . . ." Reviewed by Shawn Fields-Berry Obsidian Magazine

A good starting point for Ancient Egyptian religion studies.

By A Customer

My only regret with this book was that it was far too short! However, it presented the Egyptian gods (or netjer, as the author refers to them) from a fresh, new perspective hitherto unseen in most texts pertaining to them (including most Wiccan "Egyptian" books). After so many years of poorly-researched books and manuals that used Budge or 70's romance novels as their references on the subject, it's good to see someone out there worth her salt putting effort into the matter (and amusing to see how many people imitate her pronunciations and use her definitions without giving her any credit whatsoever). This book touched me deeply, and has led me to question much of what I thought of the Egyptian belief system. For that alone, it is worth my praise. Now if she'd just write another one....

A great introduction for spiritual practice

By Lauren MacAoidh

This author has produced more updated material since The Neteru of Kemet was published, but this book is still a favorite in our household.

The book is formatted in vignettes that each include gentle visualizations which provide an excellent starting point for getting to know the Ancient Egyptian Gods on a personal level.

Readers who seek to begin a personal relationship with these Gods will find this book a helpful introduction.

Excellent Book to Start Learning About Kemet

By M. B. Strang

I met Rev. Tamara Suida years ago and found her to be very knowledgeable and well-qualified; you can trust the veracity of the information in this book. I have had this book since 1996 and have referred to it many times over the years. It is short but has translations of Kemetic poetry, the original names of the Kemetic deities as well as the later names (Aset is the original name of Isis, for example) and it has vignettes to meditate upon. There is also a useful bibliography and a handy glossary. It may be a short book but it is packed full of information; it is well worth the price. This book is a great introduction to the facts about ancient Kemetic (Egyptian) deities and history.
