Excellent curriculum!! Student friendly!

By Sharon

This vocabulary series has been one if the best I have come across in homeschooling. It is interactive, (there is internet access to the different levels for additional helps), and gives examples of how to use a word in a sentence. My boys have liked these books better than anything else we have tried, and we have tried many! We will continue to use these books. I highly recommend getting the teacher edition as a companion to the student book.
